Attn: The Owner of New York State Fence

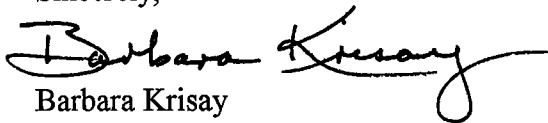

Gentlemen;

One year after its installation, I am still pleased with the quality of your product and especially with the level of service that I have received from your company.

In particular, I would like to commend your residential sales representative, Mr. Jim Vaccaselli. This summer, he promptly answered my call concerning the lock on my garden gate. He fixed the problem almost immediately and explained to me how to maintain the lock to avoid future problems. I want to commend him for his expertise, but also for his patient and kind manner. He is an important asset to your company.

Because of your fine product and excellent service, I have highly recommended your company.

Sincerely,

Barbara Krisay
