Dear Sir:

I want to commend you on the excellent staff you employ. Customer service is a key component to the success of any business and your employees exemplify at this skill. As you know customer service as well as quality work will give your business a wealth of repeat customers, whom willingly give New York State Fence Company, Inc. free advertisement by referring other consumers to your services. My husband and I are very pleased with our new fence. Your staff handled our difficult neighbor professionally and courteously, keeping us informed and ensuring us that our fence job would be completed.

We especially want to thank Jennifer and Jim for their patience with us when we changed our order twice, and Robert and Bill who encountered our irritate neighbor and still completed their work order.

Peace,

Glenn M. Arnold
